HAREM™

The "Harem" collection is inspired by forbidden, mysterious, and evocative places. With this collection we wish to create pieces with unique characteristics that can enhance and harmonize the most important spots in each space. A collection that pays tribute to the Orient, where Middle Eastern culture is mutated by Western customs that reinterpret suggestions through the creativity of enterprising designers, stunningly blending these two worlds in unison. This is how a collection with the taste of tradition takes shape, very similar to that described in the stories told for centuries.

Shapes and decorations in oriental tones blend with the minimal beauty of Italian design, illuminating a collection made up of opposites that come together to create a new shape. Traditional materials are combined with new technologies, the open becomes closed, and the transparent fades away into the opaque to the point of staging a truly magical scene of shapes and colors.

“

*A nod.
Quick steps, a thousand
souls awaiting a word.
A regal gesture, a slim hand
embellished with iridescent jewels.*

*A proud gaze, a decisive step, while the
silk dances in the wind.
A reigning bride, an empire between
the desert and the sea.*

”

harem[™]
SULTANA

SULTANA™

Exotic suggestions are a major source of inspiration. They are able to combine many elements inside a timeless, aesthetic tale. *"Sultana"* unfolds like an iridescent shape, changing lines that recall the architecture of oriental palaces, but also the headdresses of the consorts of rulers of faraway kingdoms. Irregular markings and golden dust cross the primary shape, almost like the desert wind making brush marks on the sand.

Furnishings in the *"Sultana"* line fit inside spaces thanks to the skilful play of contrasts and light and shade, able to converse with the other elements in the environment. Sideboards in different sizes take their place in sitting rooms like precious containers; headboards and mirrors embellish bedrooms that recall ancient legends. Gold leaf and the *Trilli Effect* run across glass surfaces, capturing and reflecting the light from every angle to obtain an iridescent, almost mercurial, image.

ODALISCA

ODALISCA™

The concept of “**Odalisca**” is closely linked to suggestions of the Middle East and the ancient traditions of distant peoples. Contrast plays a very important role in the line’s furnishings: black and white, the brightness of gold against the uniformity of the monochromatism, wavy lines on flat surfaces. The primary design recalls the shapes of the sovereigns’ palaces seen from a distance, on the horizon as glimpsed from the desert while being enveloped in a turbine of golden sand.

“**Odalisca**” brings the suggestions of a distant world and legends lost to time into the environment. The sideboards, in various sizes, become central elements in the rooms, as well as precious containers. The iridescent effect of the gold leaf as it reflects the light gives rise to constantly changing perspective effects, accentuated by the *Trilli Effect* that crosses the monochromatic surfaces. The mirror lightens the composition, centring the attention on the functional aspect of the central outline of the work.

LAYLA

LAYLA™

Middle Eastern tradition is an abounding array of tales, images, and suggestions that stimulate our visionaries. When these elements combine in a unique and complex message, they give rise to collections united by a precise guiding theme. The “Layla” line is an example of how the visions of faraway lands and history can generate works characterized by a recurring impression, like a specular design with sinuous lines that recalls the palaces of the sultans as well as the dunes of the desert.

“Layla” returns to the rhythmic and elaborate image of a multitude of curves and lines in various models, which become central elements of the furnishings of the environment in which they are located. Both the two sideboards and the mirror have a white or black surface, a particularly effective monochromatism to promote combinations and accentuate the contrast with the central design. The gold leaf combines with the *Trilli Effect* to create new reflections as the light changes.

MORGIANA

MORGIANA™

The magic of distant lands, lost in time and space, gives rise to suggestions that inspire the work of the visionaries. The tradition of Middle Eastern fables whispers visions of warm nights under the stars, ancient palaces, and impressive entries to rooms decorated with gold and fabrics. The "Morgiana" line embodies these images, which are synthesized in a design inspired by the shapes of the doorways of Arab palaces. Lines, curves, and signs traced as if they are on infinite sand caressed by the moon.

"Morgiana" is made up of a finely crafted sideboard and mirror. They easily fit into the room thanks to the monochromatic black and white surface that converses with the rest of the furnishings. The primary design, with its strong Middle Eastern influences, captures the gaze: gold is skilfully crafted in gold leaf and a sinuous mirror is wrapped in *Trilli Effect* gold dust.

LUNALBA

LUNALBA™

The moon is a recurring element in UNICA concepts, as it is in the ancient traditions and art forms of the Middle East. The physical and symbolic importance of this star leaves no one untouched. In our productions it takes form in inferences and revamped versions of its various moments and faces under the starlight. "Lunalba" arises from the idea of this satellite as if it is held by the two edges of the sky and peeks out from behind the mirror.

The "Lunalba" mirror is a work with a complex design, that captures the attention through its unusual shapes and unique composition. It fits inside rooms as a prominent element, merging with the pre-existing furnishings thanks to the large monochromatic surfaces. Different sizes of Swarovski® crystals embellish the slats representing the sky while the moon, depicted in the centre, is an intricate work in gold leaf. The mirror is enclosed inside the front part, perfectly integrated in the composition, as if it were a mere decoration.

LUNALBA™

"HAREM" COLLECTION

Designers UNICA

Product features Mirror composed of 3 extra-clear tempered decorated glass sheets blended together, 5 mm. thickness each, decorated with sandblasting for handmade stars, *Trilli Effect* (golden powder), gold coloured leaf, black painting and Swarovski® application.

TAPPETO VOLANTE

TAPPETO VOLANTE™

Magical elements are an essential component of ancient tales. The suggestions of fables that come from the Middle East were the inspiration for many UNICA lines, like the **"Tappeto Volante"** table: a richly decorated glass surface resting on a complexly crafted base, which incorporates the luminosity of the design on the glass.

"Tappeto Volante" is a table loaded with suggestions and symbolic meanings that enrich the environment. It plays a central role in the room as a design element of togetherness. The laser processing of the steel base with its elaborate intertwining calls to mind a dense Arabic script written in golden characters. The glass surface contrasts the monochromatism with a hypnotic design in gold leaf wrapped in ultra-fine powder for the *Trilli Effect*.
